NANOG ON THE ROAD COMES TO RALEIGH, NC APRIL 12, 2016 AND DENVER, CO MAY 10, 2016

One-Day Programs Offer Professional Education and Networking Opportunities for Internet Professionals, Students and Individuals Interested in Network Operations

ANN ARBOR, MI, MARCH 22, 2016 – The North American Network Operators' Group (NANOG) is pleased to announce two upcoming NANOG On The Road events, to be held Tuesday, April 12, 2016 at the Embassy Suites Raleigh Durham Research Triangle in Cary, North Carolina, and at the Denver Marriott Westminster in Denver, Colorado on Tuesday, May 10, 2016. Registration for both events is free and includes education-based programs offering attendees the opportunity to hear from industry leaders through tutorials and local content related to network operations. Networking opportunities among industry veterans and budding professionals will also be available.

NANOG On The Road programs include a series of informational sessions covering everything from technical services, the status of IPv6 adoption, current registry policy, to developments and hot topics in Internet governance. The programs also feature an open Q&A session for attendees to ask about any of the day's presentations as well as learn more about NANOG.

Both NANOG On The Road events will be held from 8:30 AM - 5:00 PM, and feature post-event receptions which conclude at 6:30 PM. There is no fee to attend; however, registration is required to reserve a seat. Attendees can register for the Raleigh, North Carolina NANOG On The Road event by clicking here; Denver, Colorado NANOG On The Road attendees can register here. Registration is now open for both events.

NANOG sits at the junction of Internet infrastructure and network operations in North America, sharing a rich cooperative history with the operator community representing a large stakeholder group who work to keep the Internet working through network operations. NANOG On The Road events provide attendees with greater access to resources, tools and information that will help them excel within the industry and help them do their jobs of managing the Internet more effectively.

About NANOG

NANOG is a community of industry experts that work together for the common good of the Internet. In many ways, the NANOG community serves as the heart and soul of the Internet. This close-knit group meets three times a year to discuss all issues, large and small, as they relate to the performance, accessibility and evolution of the Internet. NANOG is dedicated to improving the Internet for all major sectors (public, private, education and consumer) in all corners of the world. NANOG is a non-profit organization and relies on sponsors to help with costs for its tri-annual conferences as well as managing ongoing communications. Annual Premium Sponsors include Diamond Sponsors NTT Communications and Verisign; Platinum Sponsors Google and Netflix; and Gold Sponsor Windstream. To learn more, visit: www.nanog.org.
