ARIN Open Microphone
NANOG 23

Richard Jimmerson
Director of Operations

October 23, 2001
Oakland, California
Reason for this Session

- Operator input crucial to the Internet resource policy evaluation process
- Operators are most affected by ARIN policies
Policy Development Process

- Developed by the Internet community within the ARIN region
- Participation open to everyone
- Policy issues are discussed:
  - On ARIN public mailing lists
  - At open public policy meetings (twice yearly)
  - At other meetings

- Internet Resource Policy Evaluation Process located at:
  www.arin.net/arin/policy_eval_process.html
Policy Process

ARIN BoT evaluates policy proposal
