Equinix Update

NANOG IXP Update
February 10, 2003

Jay Adelson
Founder, Chief Technology Officer
adelson@equinix.com

Equinix Merger

- **As of January 2, 2003, Equinix is now the largest global network-neutral IX services company**

- **Equinix has integrated i-STT and Pihana Pacific into the Equinix Business**

- **15 IBX centers in six countries**
  - *Ashburn, Newark, Secaucus, Chicago, Dallas, Los Angeles (x2), San Jose, Honolulu, Sydney, Hong Kong, Tokyo, Singapore (x2) and Bangkok*

- **Same Equinix management team, with main HQ in Mountain View, California and Asia-Pacific regional HQ in Singapore**

Equinix Services

- **Still evaluating the needs of each market**

- **Peering markets are in different stages of development in each of these regions**

- **Equinix is actively promoting switch-based and cross-connect based peering and interconnection in all 15 locations**

- **Equinix currently is continuing to offer the same services of the three combined entities**

- **Expect a consistent level of quality in all IBX locations**

equinix

IX Services Unchanged

- **Equinix Exchange**
  - **GigE, 10/100 ports**
  - **Shared and Private VLANs**

- **ICE (Internet Core Exchange)**
