PAIX Update

Stephen Stuart
Founder, VP Engineering
PAIX.net, Inc.
Acquisition Status

• Sale motion approved last week of January
• Waiting for the transaction to close
  – Legal staff closely monitoring semi-colon density for critical mass
Facts and Figures

• 11th anniversary of interconnect in Palo Alto, 1/03
• 9 metros with PAIX, Peering by PAIX, etc. in US: NY, Philadelphia, Washington DC, Atlanta, Miami, Dallas, Seattle, San Francisco Bay area, Los Angeles
• 1 metro in Europe: Budapest
• Ethernet-based switching services, all kinds of cross-connects, that you know and love
• New services under development
Metro interconnections

• Up now:
  – Seattle: SIX and Pacific Wave

• Waiting for fiber terminations/jumpers:
  – Los Angeles: LAAP
  – Atlanta: SoX/SURA

• Discussions in progress:
  – Telehouse
Sample Metro: sfba fabric

- Five sites, PAO1 is “center”
- Two sites connected by DWDM systems
- Two sites connected by LX
- SFO2 = 200 Paul
- SJC{1,2} = MFN
- SJC3 = 55 S. Market
Sample Metro: puget fabric

- One site, SEA1 is “center”
- SEA1 = Westin
- Two other switch fabrics (Pacific Wave is actually two separate, so three)
- Off-floor connections via LX
