Checkpoint: NSP-SEC

- Do you work for some type of IP transit provider, content provider, or service provider?
- Does your job include Operational Security?
- Are you willing to offer free services, data, forensic, and other monitoring data to the NSP community?
- Do you have authorization to actively mitigate incidents in your network? Do you actually login to a router and do something to mitigate an attack or call someone to task them to do the work?
- Do you have the time for a real-time NSP mitigation forum?
