Special Interest Groups

- **Vendor SIG**
- **CVSS SIG**
- **Abuse SIG**
- **Network Monitoring SIG**

Abuse SIG

- Formed out of E-CoAT (European Cooperation of Abuse fighting Teams)
- <http://www.e-coat.org/>
- Aims to further the cooperation of Internet abuse fighting teams of network/information service providers, and jointly produce tangible results that will benefit its constituency and beyond and help them more effectively combat Internet based network/computer abuse

Network Monitoring SIG

To discuss and collaborate on various issues, such as sensor detection methodology, common rule-sets for detection, data exchange format, database architecture for collected data, data normalization and statistics generation in order to provide early warning and alert services for their constituencies.

2006 Conference

June 25-30, 2006 in Baltimore, Maryland
