

# NANOG 40

June 3-6, 2007

Bellevue, WA

Hosted by XKL

# Welcome to Bellevue

- Rapidly growing suburb of Seattle
- Seattle is west, across Lk Washington
- 31sq mi, 117k pop
- Incredible growth
- Great downtown area

<http://nanog.cluepon.net/index.php/NANOG40>

# XKL

- Network equipment vendor
- Located down the street in Redmond, nestled near the campus of a fairly large software company
- Owned by cisco systems co-founder Len Bosack
- Len's goals
  - Reliable
  - Easy to use and deploy
  - Economical
- DXM product providing optical transport in the NANOG40 network

# NANO<sup>G</sup> 40 Network

# Many thanks

- Qwest (Aaron Quinn) – dark fiber
  - Randy Bush and SC for contact and intro
- Mzima (Andrew Rozell) – transit
- NTT America (Brian Foust and team) – transit
- Optic Fusion (Eric Stockwell) – datacenter space, last-mile fiber work
- XKL network & setup team – Bryce Bockman, Shane Hall, Nathan Berg, Scott Choo, Eric Finseth, Kelly Green

# Even more thanks

- Tony Kapela – feedback and ideas from concept to final buildout of NANOG network
- Rodney Joffe – NANOG hosting king
