

# **Internet Operations and ARIN Policy - Is There Convergence?**

# Policy Issues That Affect YOU

- 4 byte ASNs
- Whois Cleanup
- IPv6 Policies
- Relaxed Transfer Policies
- Etc..

# I'm Sure You are now Fretting

- Not to worry
- ARIN is membership based
- You can make a difference

# Focus on two Policies

- Two 30 min sessions
- First Session: Focus on relaxed transfer policy and how it may impact operations, business, Internet, etc.
- Snack break
- Second Session: Focus on V6 policies and how it may impact the operations, business, Internet, etc.

# Panelists

- Tom Daly, Dynamic Network Services
- Daniel Alexander, Comcast Cable
- Igor Gashinsky, Yahoo
- Kevin Oberman, ESnet
- Aaron Hughes, 6connect

# Discussion – Relaxed Transfer Policy

- RFC2050 – does not mention purchasing space
- NRPM – Section 8.3 added based on policy proposal 2009.1
- 8.3 allows the transfer (outside of merger or acquisition) of Internet number resource registration rights to an operator who can justify it
- Slippery slope to a market based economy for address space?
