

The Tampa Internet Exchange TPAIX

Owned by WOW!
Operated by Joseph Perez

Why an IX?

- * Why not MIA or ATL?
 - * Shortest I found, ~500 and ~950 dark
 - * Why add 10-20ms RT?
 - * Great for SA, bad for Central Florida
- * Tampa is usually the IP dmarc, worse when broadening out(Orlando)
- * Typical Inet RTT from eyeball(Hillsborough) 40-60ms to leave the state.
