Declaration

I hereby signify my willingness to stand for office as candidate for:

Program Committee

I agree, that if elected, I will adhere to the Bylaws and Policies and Procedures of NANOG currently in force and as may be amended by the membership from time to time.

1) Provide a brief biography of recent experience, associations, and affiliations relevant to serving on the NANOG Board of Directors or NANOG Committees. Please be as specific as possible.

I'm currently working as the Manager of Network Operations at facebook.

Facebook's scale is massive, and as such we have unique views on how to solve common network challenges, including our non-traditional approach to network operations. We heavily leverage automation to keep our network running, resolve faults, and to deploy new devices. Doing so allows us to operate with a fairly small team.

In addition, I established a series of monthly lightning talks within the facebook infrastructure team, and have run our internal summit. This event involves soliciting speakers, reviewing content, and organizing the event for an audience of approximately 1,000 engineers.

If selected, I would seek to make automation, and programming integral parts of the NANOG community. With the goal of introducing the community to the power of these new skills and how they can help to make networks easier to grow, scale and maintain in the future.
